ASPEN

The Aspen Collection features rustic barn wood style mouldings with a focus toward the renewed interest in using mouldings with rich textural surfaces, natural hues and time-worn finishes. The overall look captures the weathered beauty of reclaimed wood, with patinas that bear evidence of the original paint that has been worn by the elements.

Aspen fits into the “chic-lodge” category of home interiors, blending rough textures rightly associated with the outdoors with gilded finishes to soften and refine its look.
